HISTORY

Bullston a company of, by and for horse lovers was conceived by Harjit Singh Rai an avid rider and animal lover who was peeved and concerned about the treatment meted out to the horses in India during transportation.

Having spent better part of his life in the USA and Italy where the love for animals is paramount and is not dictated by the other sundry factors. With his experience and research of two decades decided to provide the horse lovers in India and option for safe and secure transportation of their love ..the horses.

The hard work paid dividends with the production of the first horse carriage trailer which was successfully completing the field trail. Capable of carrying two horses the trailer has the finesse safety measures and comfort matching international standards and is slated to change the face of transportation in India. Not limiting itself to trailers the company is taking big steps in its way towards introducing new concepts in the field of equestrian, be it the need based designer stables or fabrication of floats and horse supplements and many more....

OUR MISSION

Design and manufacture the most respected and recognized lines of trailers. Our broad exposure and acceptance within the marketplace has made Bullston the preferred choice with dealers and customers alike.

HORSE TRAILER

Whether it's to a trail ride or the show arena, Bullston trailers are being pulled in all directions. That's because there's a Bullston trailer designed to meet the needs of every family, entry-level or professional horseman. From bumper pulls to deluxe living quarters to trainer.

Trailers, each Bullston is built with unique features and options to meet specific customer needs. So whatever direction you're headed, let Bullston take you there. As the industry leader, Bullston is committed to the ongoing improvement and upgrading of its extensive line of trailers. In fact, Bullston continues to "raise the bar" with innovative features, exceptional workmanship, and attention to detail and safety. As the premier manufacturer of horse and livestock trailers, Bullston offers uncompromising value, ease of maintenance, customized designs and abroad dealer network with first-rate customer service.

MOVABLE DOG HOMES

We proudly announce that we have added another product line. We are manufacturing movable dog homes that serve the dual purpose of living quarters as well as safe transportation mechanism for dogs. We continue to use our signature three layer construction concept with excellent suspension for minimal to no discomfort to the dogs during the travel

BUILT TO ORDER

Our engineers and design staff will build custom trailers for the specific needs of our customers.

SOME KEY FEATURES

- Gas filled shock absorbers
- 15 inch alloy wheels with tubeless tyers
- Three layer all weather body construction
- Well designed ventilation system
- Anti skid rubber flooring
- Four sided cousin for extra comfort.
- LED side markers and tail lamps

HORSE STABLE

We are a one of the leading manufacturers of horse stalls and horse stable equipment in Indian market. Our offer includes manufacturing and installation of horse stable stalls, outdoor stalls and mobile horse boxes, as well as stable windows, gates and doors. We also manufacture and supply highest quality, affordable riding arenas and all our products are designed with safety of use in mind, assuring appropriate conditions and care for your horses.

HORSE TRUCKS

Bullston has been developing horse trucks of the highest quality . You can rely on quality workmanship from top to bottom. Each individual horse truck is manufactured just for you – with a consistently high level of quality down to the smallest detail. A product needs to be good enough to meet our own requirements and those of our horses before it enters serial production. With our many years of experience in equestrian sport we have the same aims as all riders - the well-being of horses.

HORSE WALKERS

Everybody knows a well-conditioned horse performs better, behaves better, and is less prone to injury. However, keeping even a small group of horses well-conditioned is a full time job. With today's busy schedules, it's hard to find the time to give your horses the exercise they need daily and hiring someone to do so is costly and risky. Not to mention that finding someone to exercise your horses without teaching them bad habits can be a challenge in itself. That's why a good horse walker is the safest, most affordable, and practical solution.

Bullston horse walkers are like no other on the market. Our walkers are virtually maintenance free, safe, attractive, durable and offer more options and benefits than any other walker, and all for a fraction of the cost hiring someone to help keep your horses fit. Hundreds of the top equine professionals and in every equine discipline choose our horse walkers because the only thing more reliable than a Bullston Walker is the company that stands behind it.

HORSE TREADMILLS

Bullston treadmills have been specifically designed to ensure very high strength and safety all round. The horse enters and exits the treadmills by means of very low level front and rear ramps.

Horse treadmills have been developed to provide a completely safe, controlled workout for your horses.

Treadmills are especially useful for building up muscles, ligaments and tendon strength, flexibility and endurance and close, safe monitoring of horses fitness and training
